

Hands-On Practice

Lesson #2

Smart Notebook Intro

Now that you have watched some tutorials and read over some materials about using SMART Notebook 10, try to do the following tasks to practice some of the skills you have learned.

- Launch SMART Notebook on your computer
- Write Your Name on the Board
- Add a New Page
- Draw/Write Something on the new page
- Continue building a SMART Notebook file until you have at least five separate slides
- Save and Print your SMART Notebook file
